Part A – Coding Practice

CodeChef

PROBLEM 1

[Statement](#)[Submissions](#)[Solution](#)[AI Help](#)

Area & Perimeter of Rectangle

 Listen

Write a program for the following problem

- Let's consider a rectangle of length **11** and breadth **13**.
- Output the following on separate lines:
 - Area of the rectangle having sides as **11** and **13**
 - Perimeter of the rectangle having sides as **11** and **13**

For any rectangle, the formula for area is length * breadth.
The formula for perimeter is 2 * (length + breadth).

Expected output

```
143
48
```

SOLUTION 1

[< Prev](#)[Next >](#)

Python3

```
1 # Update the '_' below to solve the problem
2
3 print(11 * 13)      # Area of the rectangle
4
5 print(2 * (11 + 13)) # Perimeter of the rectangle
```

Your Output

```
143
48
```

✓ You got it right!

[Submit](#)[Next](#)

PROBLEM 2

Statement

Write a program to output the squares (using multiplication) of numbers from 1 to 5 on separate lines.

[**Note:** Please print in the same format as given below. There are single spaces between hyphen(-) and digits.]

Output Format

```
1 - 1
2 - 4
3 - 9
4 - 16
5 - 25
```

SOLUTION 2

Python3

```
2 for i in range(1,6):
3     print(i,"-",i*i)
4 print()
```

Your Output

```
1 - 1
2 - 4
3 - 9
4 - 16
5 - 25
```

Submit

Next

PROBLEM 3

Statement

Write a program to output the square of * (stars) of size 4 (check the output below).

```
****
****
****
****
```

SOLUTION 3

Python3

```
1 # cook your dish here
2 for i in range(4):
3     for j in range(4):
4         print("*",end="")
5     print()
```

Your Output

```
****
****
****
****
```

DIGITAL LITERACY AWARENESS QUIZ

Sneha Bakre 25BCY10096

This form is automatically collecting emails from all respondents. [Change settings](#)

1. What does digital literacy primarily refer to? *

- ☐ Using social media daily
- ☐ Ability to use digital tools responsibly and effectively
- ☐ Playing online games
- ☐ Typing fast on a keyboard

2. Which of the following is a safe internet practice? *

- ☐ Using the same password everywhere
- ☐ Sharing passwords with friends
- ☐ Clicking unknown links quickly
- ☐ Verifying email sources before responding

3. Why is maintaining a professional online presence important? *

- ☐ To gain more followers
- ☐ To impress friends
- ☐ To create a positive impression for opportunities
- ☐ To post daily updates

4. What is a common sign of a phishing attempt? *

- ☐ Personalized and verified message
- ☐ Urgent request for sensitive information
- ☐ Message from a known contact
- ☐ Proper company email address

5. Digital literacy is not just about using technology, but also about understanding the _____ and responsibilities associated with it. *
